

Agency Name: Boys & Girls Club of Binghamton

Program Name: Main Unit

Program Success Story:

Drama Program:

This is one program that has been extremely effective for our members. Many of the members who participate are very shy in the beginning and they learn to be confident in themselves throughout the program.

One member in particular that has been impacted by this program is a member who is 9 years old and his name is Daifon.

This year the play was "Icarus". Daifon played the main character in the play. He went from being a quiet, shy and kept to himself to being very confident and believing in himself. He was able to sing and act in front of a large group of people.

Daifon was most proud of himself when he saw his family members in the audience and they were cheering him on.
