

UNITED WAY OF BROOME COUNTY

Agency Name: Boys & Girls Club of Western Broome, Inc.

Program Name: Youth Swim Program

Program Success Story:

Most youth in the program start at a very early age, some as early as sixmonths old. They learn how to swim properly and continue to progress through our swimming programs throughout grade school and high school, where they continue participating in swim team activities, synchronized swim teams, teaching other children proper swimming strokes, or learning lifesaving skills at our club. Some continue on to college with their water activities, and after graduation, a few will pursue a career in teaching/coaching aquatics programs. Many of our aquatics staff members received their initial experience at an early age at our club.
